## 14. Biodiversity and Geological Conservation

To assist in answering the following questions refer to the guidance notes on the Planning Portal website (see "Local level requirements and additional documentation").

The notes provide further information on when there is a reasonable likelihood that any important biodiversity or geological conservation features may be present or nearby and whether they are likely to be affected by your proposals.

Having referred to the guidance notes, is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

a) Protected and priority species:

Yes, on the development site  Yes, on land adjacent to or near the proposed development  No

b) Designated sites, important habitats or other biodiversity features:

Yes, on the development site  Yes, on land adjacent to or near the proposed development  No

c) Features of geological conservation importance:

Yes, on the development site  Yes, on land adjacent to or near the proposed development  No

### Supporting Information Requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

## 14. Biodiversity and Geological Conservation

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the Local Planning Authority has been submitted.

Your Local Planning Authority will be able to advise on the content of any assessments that may be required.

## 15. Existing Use

Please describe the current use of the site:
